David K. Owens
Executive Vice President, Business Operations
Edison Electric Institute

Owens leads the business operations for Edison Electric Institute, the association that represents all U.S. investor-owned electric companies. In this capacity, Owens has significant responsibility over a broad range of issues that affect the future structure of the electric industry and new rules in evolving competitive markets. He also spearheads efforts to enhance the public policy climate for investments in America’s electricity infrastructure with an emphasis on the role of new technologies to address climate change and enhance energy efficiency through smart buildings, smart appliances, smart meters and smart electric grids.
