Medical Malpractice Reform

This Act to contains a clause wherein the state legislature asks the state Supreme Court to require a plaintiff filing a medical liability claim to include a certificate of expert review as to each defendant and to establish an expedited discovery process in medical liability claims to provide for the timely resolution of the disputes. It requires certain insurers who write malpractice insurance to report information to the state department of insurance at least annually regarding any medical, dental, optometric, or chiropractic claim asserted against a risk located in this state, if the claim resulted in a final judgment in any amount; a settlement in any amount; or a final disposition of the claim resulting in no indemnity payment on behalf of the insured.

This Act regulates defendants' use of affidavits of noninvolvement in medical claims. It establishes qualifications for expert witnesses who provide testimony in a medical liability action and regulates the collection and disclosure of medical claims data by the state department of insurance.
