

High School Student Athletes and Anabolic Steroids

This Act directs organizations which organize and govern public high school interscholastic activities to establish rules requiring that, upon disclosure, a public school student athlete who uses anabolic steroids during the training period immediately preceding or during the sport season of the school athletic team on which he is a member be ineligible to participate in interscholastic athletic competition for two years, unless the steroid was prescribed by a licensed physician for a medical condition. Student use of anabolic steroids during the training period immediately preceding or during the sport season of the school is required to be reported, unless the steroid was prescribed by a licensed physician for a medical condition. The bill also requires the state board of education to suspend or revoke the administrative or teaching license of any person who knowingly and willfully with the intent to compromise the outcome of an athletic competition procures, sells, or administers anabolic steroids or causes these drugs to be procured, sold, or administered to students, or by failing to report student use of anabolic steroids.
