The CSG Committee on Suggested State Legislation convened on Monday, August 11, 2014 and Wednesday, August 13, 2014 to review 91 bills on the first docket of the 2016 SSL cycle.

For each bill, the committee had four options: include it in the SSL volume; include the bill in the volume as a note, which indicates that the committee believes the bill (and other similar bills addressing the topic) to be of interest to state leaders, but does not merit full inclusion; defer consideration; or reject the bill.

The committee approved 18 bills to be included in the 2016 Suggested State Legislation volume, deferred action on 19 bills to the next meeting of the committee (June 2015), and rejected 33 bills.

The committee also requested that notes be prepared for inclusion in the volume on eight topics, representing the remaining 21 bills on the docket:

- Carbon dioxide standards for emissions
- Crowdfunding
- Juvenile justice and school discipline reform
- Adult abuse registries
- Biologics / biosimilars
- Dental therapy
- Hepatitis C testing
- Agricultural nutrient management

The committee members provided CSG staff instructions to include additional legislation and information on several topics for the upcoming CSG meeting in June 2015, including:

- Innovation education campuses
- Flexible pathways to high school completion
- College readiness frameworks
- High school career options
- Academic credit for military training
- Criminal history on job applications
- Designation on driver’s license for autism and intellectual disabilities
- Prescription monitoring program compact
- Do not text registries
