Pharmacy Benefits Managers Registration

Pharmacy Benefits Managers (PBMs) are businesses that administer and manage prescription drug benefit plans either through health insurance products or separately. Approximately 95 percent of all patients with prescription drug coverage receive benefits through a PBM. In recent years, concerns have been raised by consumer organizations and states regarding the business practices of PBMs. Some of these business practices, such as switching patients from one brand-name drug to another brand-name drug, led to multistate settlement agreements between PBMs and state attorney generals. Demands for greater transparency in financial relationships between PBMs and drug manufacturers have prompted states to propose regulation of PBM activities.

This draft legislation requires a PBM to register with the state Insurance Commissioner before providing pharmacy benefits management services in the state. Registration is effective for two years and may be renewed for an additional two years. Subject to hearing provisions, the Insurance Commissioner may deny, suspend, revoke, or refuse to renew a registration under specified circumstances. The Insurance Commissioner is authorized to assess a civil penalty of up to $10,000 against any person that violates the registration requirements or require PBMs that violate the Act to cease and desist; take specific affirmative corrective action; or make restitution of money, property, or other assets. A PBM may not ship, mail, or deliver drugs or devices to a person in the state through a non-resident pharmacy unless the non-resident pharmacy holds a pharmacy permit from the state Board of Pharmacy. A PBM that is operating in the state on October 1, 2008, may continue to operate as a PBM if the PBM registers with the Insurance Commissioner by July 1, 2009, and complies with all other applicable registration provisions.
