The CSG Committee on Suggested State Legislation convened Thursday, May 17 and Saturday, May 19, 2012 to consider 99 bills on the final docket in the 2013 SSL cycle. Notable topics addressed on this docket included Nevada legislation to establish a license endorsement for autonomous vehicles and Washington legislation addressing concierge medicine.

The committee voted to include 12 bills in the 2013 Suggested State Legislation volume. It deferred 29 bills for further consideration, and it rejected the remaining 58 bills. The SSL Committee will meet next in November-December 2012 at the CSG 2012 National Conference in Austin, TX. The deadline to submit bills to this docket is September 30, 2012.

The SSL Committee approved 30 bills in Bellevue to be published as drafts in Part I of the 2013 SSL volume. Staff sent a PDF of Part I to the SSL Committee members and published it on CSG’s website. Notable topics addressed in Part I include foreclosing mortgages, hydraulic fracturing, taxing sales on the Internet, and sexting. Staff will combine the bills in Part I with those the SSL Committee selects in La Quinta into the complete 2013 SSL volume, which staff plans to publish in electronic and paper formats in December 2012.

CSG published the 2012 SSL volume electronically and in paper in December 2011. Staff emailed a PDF of that book to the SSL Committee members and mailed paper copies to approximately 1000 other state officials. Notable topics addressed by the drafts in this book include bullying, cyberbullying, health benefit exchanges, and open source textbooks.

The SSL Committee made the following recommendation to the CSG Executive Committee:

*Move the CSG Executive Committee adopt a policy that a task force cannot make a recommendation on an SSL bill without a quorum or unless a majority of the votes are by public sector members. If no action is taken by a task force upon these items they will be returned to the SSL Committee for action without recommendation.*
