

VoIP Enhanced 911 and Enhanced Wireless 911 Service

This Act deals with enhanced wireless 911 services and Voice over Internet Protocol (VoIP). The bill defines terms that are specific to enhanced wireless 911 VoIP services. Second, the bill establishes a new VoIP E-911 Grant Fee of \$0.25 per month as a subscriber charge on each wireless VoIP telephone number in a state. The purpose of the charge is to develop and maintain enhanced wireless 911 VoIP telecommunications systems along with technology upgrades. The monies collected through the subscriber fee are remitted each month to the state Secretary of Administration and the fees credited to a Wireless Enhanced 911 Grant Fund. The fee becomes effective July 1, 2006. The bill also establishes a new \$0.25 per month, per account VoIP E-911 local fee. That money will be used by service providers of wireless 911 VoIP to ensure sufficient equipment and maintenance for customers. The bill also includes a hold harmless clause for payment of damages from the performance of installing, maintaining, and providing an enhanced 911 VoIP service to the customer.

Under the Act, each service provider has the option to list certain user fees separately on a customer's bill. If charges are stated separately, E-911-related fees must be labeled as "E-911 fees." In addition, the service provider must report all uncollected fees and balances from subscribers to the state Secretary of Administration. The local collection administrator may not use more than 2.0 percent of monies collected for administrative costs. The bill requires that the Secretary of Administration conduct a yearly audit. This bill allows VoIP service providers to recover costs from its customers, plus the collection and administration costs.
