Committee on Suggested State Legislation (SSL Committee) Docket Index

April 1988 through October 2011 (Docket 33A)

The Council of State Governments (CSG) compiles this index to give readers an idea about the scope of legislation cycling through the Suggested State Legislation Program (SSL). This index also lists how the SSL Committee votes to dispose the bills on its dockets in recent years (i.e., reject, defer, include).

CSG archives some of the legislation listed in this index, particularly in recent years. Readers who want to download the original state legislation listed on a docket should access the respective docket book at http://www.csg.org/programs/policyprograms/ssldocketsagendasminutes.aspx (e.g., Docket 30A). They should open the docket book, scroll down to “Submitted as” under the abstract of the respective item, and click the hyperlink to the bill number. For example, the Wyoming legislation listed in this index as 01-30B-02A Carbon Sequestration WY INCLUDE can be accessed on page 24 of the docket book linked online at http://ssl.csg.org/dockets/2010cycle/30B/30Bdocmins/docket30bfinal.pdf (Chapter 30 of 2008). An SSL bill draft of Wyoming Chapter 30 of 2008 is in the 2010 Suggested State Legislation volume. SSL bill drafts have been stripped of state-specific language and reformatted to make it easy for many states to enact.
