MOM Case Management Services

The MOM program funds Medicaid managed care organizations to provide enhanced case management services to pregnant and postpartum Medicaid participants who have opioid use disorder.

Core Components of MOM Case Management

1. Comprehensive Case Management

2. Care Coordination

3. Health Promotion

4. Individual and Family Supports

5. Linkages to Community and Support Services

DEPARTMENT OF HEALTH

MOM Case Management Services

- Case management includes social determinants of health screening, joint care plan development and person-centered goal-setting.

- Participation is voluntary.

- Sobriety, treatment and/or medication for opioid use disorder are not required for MOM participation.

- Screenings and care plans are hosted in CRISP and available to empaneled providers.

- No-wrong door referral–*WE NEED YOU!*

We got you.

Let's keep both of you healthy.
Help for pregnant people on Medicaid with opioid use disorder.

No judgment. Just help. Apply today.
